SUBJECT: Preliminary Construction Specifications on the Internet

Dear Sir/Madam:

On August 25, 1997, Transatlantic Programs Center (TAC) mailed out letters promising specifications of sample projects by country on the Internet. This was part of a recommendation from contractors who attended the Acquisition Reform Day II on April 24, 1997. These sample specifications have now been placed on our Internet Home Page for your perusal.

We look forward to your comments and suggestions as we endeavor to determine innovative procedures to tighten the partnership between customers and the Corps.

Sincerely,

A handwritten signature in black ink, appearing to read "William R. Brewer, Jr.", is positioned above the printed name.

William R. Brewer, Jr.
Director, Contracting
